ROLE OF HOMEOPATHY IN STYE

- **WHAT IS STYE :-** Sties are normally caused by a proliferation of natural bacterial flora within the eye. styes causes inflammatory reaction. it resembles a pimple in exterior appearance and may growth both inside and outside of the eyelid. The symptoms of styes include redness, pain, swelling and tenderness. Stye is like a pimple or an abscess at the edge of the eyelids .in this the eyelid gland becomes infected by bacteria staphylococcus aureus. Generally, sties have tendency to recue because of weakness of the immune system.
- **CAUSES OF STYES ON EYELID**
 - Eyelids have many tiny oil glands, which can become clogged by dead skin, dirt or oil buildup. When a gland is blocked, bacteria can grow inside. This is what causes a stye to develop.
 - Homeopathy is safe, deep acting, results are long lasting and it corrects the immune system.
 - Recurrence of sties completely stops with homeopathic treatment.
 - The reason is homeopathic medicine create an environment in the body that it becomes difficult for the bacteria to remain viable.
 - There are many homeopathic remedies for sties.
 - Here is some of top homeopathic remedies for stye.
 - **FERRUM PHOS: FOR FIRST STAGE OF STYE.** Ferrum phos is a very effective medicine for stye treatment. it is the best remedy for first stage of stye . at this stage redness pain tenderness swelling in relieving all these symptoms. this medicine also stops the progression of the stye to a stage of pus formation. Acute conjunctivitis, hyperemia of optic disk and retina with blurred vision. eyes inflamed red with burning sensation sore and **SENSATION AS IF GRAINS OF SAND WERE UNDER EYELIDS** are symptoms of ferrum phos's eye.
 - **SILICIA: FOR LAST STAGE OF STYE WITH PUS.** It is best cure when complete pus has been formed in stye that is usually in the Last stage. Silicea helps in the pus getting absorbed or drained out resulting in proper resolution of the stye problem whether pus is absorbed or discharged depends on each individual case. if this beginning of pus formation the pus is absorbed but when complete pus is formed in stye silica will help in proper draining out of pus. Silicea is natural medicine that also makes sure that no resultant nodule is left after the stye is gone. Angles of eyes are affected. Swelling of lachrymal duct Aversion of light especially day light it produces dazzling sharp pain

- through eye, eyes tender touch worse when closed. Vision confused letter rubs together on reading. Styes, Sloughing ulcer of cornea Abscess of cornea after traumatic injury Cataract in office workers. Use 30th potency for months.
- **CONIUM: WHEN HARD NODES ARE LEFT BEHIND FROM STIES.** Conium is the best medicine for taking care of hard nodes that remain after improper healing of sties. These are referred to as indurated sties. conium has the ability to soften such hard knots and make them disappear completely. In such cases conium is a great help in completely curing the styes & never disappoint. There is aversion to light without inflammation of eyes. Weakness and dazzling of the eyes with giddiness and debility. Weakness of vision pupils dilated. The pain is worst at night and by least ray of light relieved by dark room and by pressure.
- **EUPHRASIA:-** For sties with extreme burning and watering from eye this medicine is commonly known as EYE BRIGHT because it has ability to treat eye disease Euphrasia best medicine when there is excessive watering with burning sensation in eye along with stye There also marked redness itching biting in the eyes. eyes are agglutinated in the morning. Margins of lids red swollen and burning very much sensitive to touch. Violent itching of eyes leading to rubbing and winking. Aggravation: in the evening and from south wind and warmth
- **PULSATILLA:** For upper eyelid sties. it is the ideal remedy for to treat the sties of upper eyelid. It is suited to all cases where eating of fatty food like butter creams pastries proceeds formation of the sties dryness of lids with sensation as if darkened by mucous. Pressure as from sand in eyes, thick yellow bland discharges burning and itching in the eyes. Margins of eyelids with lachrymation and nightly aggravation. Opthlamia may also be treated successfully with pulsatile.
- **CALCAREA FLOUR : FOR TUMOURS OF EYELID** Best medicine to deal with tumors of eyelids. This medicine has proved to be very effective in removing tarsal tumors. Dimness of vision on overstraining the eyes. Conjunctivitis, Stye, Tumors on the eyelids. Flickering and sparks before the eyes. Subcutaneous palpebral cyst.

---: HOMEOPATHY..... :-

It will change day by day..
I have strong belief
Homeopathy is here to stay..
Finding a remedy may be pain
But all this work will never goes in vain..

Some are Lyco and Sulphur are others..
Selecting any one makes me bother..

Aconite is for the tremendous fear.
Arsenic will work when death is near..

Long long case taking..
Sometimes it seems time wasting..
But true picture it is creating..

Still the mysteries of remedies are unsolved.
I want to know prover's stories involved

Why Cal so chilly , Cham so silly..
Why there is angry Nux..???

Long long principles , long long laws
Why Homeopathy is with many flaws...

Nothing can be goes wrong ..
With patient Homeopathy stays along...!!
